Coimbatore | +91 86678 84814 | deeksha.bme@gmail.com | [linkedin.com/in/deeksha-k-psg-tech](https://www.linkedin.com/in/deeksha-k-psg-tech)

Education

Course	College / Board	CGPA / %	Year
B.E. Biomedical Engineering	PSG College of Technology, Coimbatore	8.48	2028*
HSC-CBSE	Vishwa Sishya Vidyodaya School, Pollachi	86.8	2024
SSLC-CBSE	Vishwa Sishya Vidyodaya School, Pollachi	96.8	2021

* Currently pursuing (2024 – 2028)

Internships

GNN Rising Star — Mentorship Program

Jan 2026 – Apr 2026

Imperial College London | Remote, United Kingdom | Highest Distinction Awardee

- Designed and built an end-to-end Graph Neural Network (GNN) pipeline for biological network data analysis (BioGraphBench)
- Implemented node classification, link prediction, and edge embedding techniques on graph-structured biomedical datasets
- Collaborated with world-class AI researchers over 8 weeks, gaining deep expertise in graph-based machine learning
- Selected as Top 3 Finalist globally from a highly competitive international applicant pool

AIML Intern

Jun 2025 – Jul 2025

Edunet Foundation | AICTE | IBM SkillsBuild | Remote

- Developed and trained supervised and unsupervised ML models with hands-on data preprocessing and feature engineering
- Applied Python-based ML workflows using pandas and scikit-learn on structured real-world datasets
- Completed IBM AI Foundations for Everyone — certified via IBM SkillsBuild on Credly (Aug 2025)

Job Simulations — AI & Risk Analysis

Mar 2026 – Jun 2026

Forage | Remote

- Completed Tata GenAI Powered Data Analytics simulation — applied generative AI tools to business data scenarios (Jun 2026)
- Completed Goldman Sachs Risk Job Simulation — analysed risk models and prepared structured recommendations (Mar 2026)
- Completed Vista Equity Partners AI in Action Simulation — implemented AI-driven solutions for business workflows (Mar 2026)

Projects

BioGraphBench — Graph Neural Network Biomedical Pipeline Jan 2026 – Apr 2026

Associated with Imperial College London | Tools: Python · PyTorch · GNN · scikit-learn

- Engineered an end-to-end GNN pipeline to analyze biological network data, enabling node-level and edge-level predictions
- Processed and visualized graph-structured biomedical datasets, applying molecular learning and graph embedding techniques

HealthSync Pro — AI-Driven Clinical Decision Support System Sep 2025 – Dec 2025

Associated with PSG College of Technology | Tools: Python · ML · Multi-Agent Architecture

- Architected a multi-agent AI system for real-time patient monitoring, clinical alert generation, and workflow optimization
- Presented at AI Consortium Expo — awarded a dedicated demonstration stall for the project

Research & Publications

"AI for Healthcare Workflow Optimization" Dec 2024

International Conference on Advancements in Biomedical Systems and Healthcare Technology (ICABSHT 2024) | PSG College of Technology

- Presented original research on applying AI to optimize clinical workflows to an international academic audience

Certifications

IBM AI Foundations for Everyone (SkillsBuild · Credly)	IBM / Edunet / AICTE	Aug 2025
AIML Internship Certificate	IBM / Edunet Foundation	Aug 2025
Supervised Machine Learning	Coursera	Jun 2025
Biomedical Visualization	Coursera	Feb 2025

Skills

Technical	Python · Machine Learning · Graph Neural Networks · Deep Learning · Healthcare Data Analytics · MATLAB
Design & Tools	Canva · Content Creation · UI/UX Design
Soft Skills	Leadership · Public Speaking · Problem Solving · Teamwork

Co-Curricular & Extracurricular Activities

AI Student Ambassador, AI Consortium PSG College of Technology Mar 2025 – Present

Conducted AI workshops for 200+ students and created educational AI content.

Creativity & Design Team Member, Radio Hub, PSG College of Technology Oct 2025 – Present

Contributed to content creation, graphic design, and student engagement media campaigns

Languages

English (Fluent) Tamil (Native) Hindi (Basic)
